

Our standard Pantone® Color Bridge™ colors

PLEASE NOTE: The color swatches illustrated here are simulations of Pantone colors and are to be used for general reference only and are NOT intended for accurate color matching. No guarantee is made that these swatches, whether printed out or viewed on screen, will match your final printed colors. Please consult a current Pantone Colorbridge/coated swatchbook to reference colors.

Unless PMS Color Bridge™ numbers are specified in writing, we print as is using the CMYK color values embedded in your file which could produce unexpected colors. All PMS colors specified are converted to industry standard Pantone® Color Bridge™ CMYK values and printed in process color. Pantone's CMYK colors are not exact matches to their spot color equivalents. For a more accurate representation of how your PMS colors will look printed, compare to Pantone's Colorbridge /coated swatchbook.

If your color(s) are important a printed proof must be ordered and approved before your order can be produced. Custom printed products are non-returnable, non-refundable.
