

# Impact! 20ft Serpentine Setup Instructions

1. Connect poles by pressing and pushing.

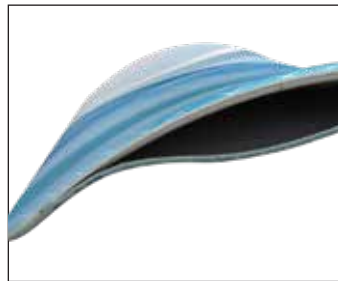

2. Connect the centre supporting poles.

3. Connect corner sections to straight sections with matching shape codes.

4. Unzip print and lay image face down. Slide print onto frame like a pillow case.

5. Zip the bottom edge of the graphic beyond the centre point as shown above. Zip the remaining side and bottom to meet at the corner, attach lights if any.

6. Position lights as desired and clamp in place.
