Graphic is shown at approximate trim size. Dashed lines indicate recommended safe area. They do not print.

**I decline having a printed proof shipped to me for color and resolution approval and accept the final product as printed.**

**THIS IS NOT A PROOF:** The low resolution copy of your artwork placed on this artwork confirmation is NOT intended as a resolution or color accurate proof. There is NO guarantee (written or implied) the colors represented here, whether printed or viewed on screen, will match your final printed colors. Unless specific PMS colors are requested in writing, we print as is using the CMYK color values embedded in your file which can produce unexpected color results. All PMS colors specified are digitally converted and reproduced in process color using the industry standard Pantone's Plus Series Color Bridge®/coated reference guide which are not an exact match to their solid spot color equivalents. If your artwork is color critical a printed proof must be ordered and approved before the actual product is produced.

**Description:** Impact (A) Pillowcase Graphic Wall Display

**Quantity:** 1

**Trim Size:** 57"W x 96"H

**Graphic:** CMYK Printed | Tension Fabric Graphic

**Color is not critical; no printed proof ordered.** Review our color policies at <http://www.tradeshow-stuff.com/support/color-policies.html>

PMS colors used in the artwork, will print using the CMYK values from Pantone's Plus Series Color Bridge (coated). These values are the mixture that Pantone has determined best represent the solid spot color (not an exact match). If a MATCH to the swatch book is necessary, a color match and printed proof must be ordered.
